I scream from bleeding balconies
atop towers of flaming flesh:
YOU YOU YOU YOU YOU YOU

When I merge with you it melts boundaries
I didn’t previously know existed

the headless chicken groans and dances:
Not this, not this!

Breasts large naked shiny
wet from shower

Soft thighs, slightly salty

Invading scent of woman in heat
always stronger than remembered

Away for now with questions and answers ...
away with now and then;
twist ancestral;
flesh meshed at the angle of

Not this, not this
In Search of The
I met a sex machine.
Her name is Ayumi Chisaka.
She was raised in a chicken coop.
By chickens.
She love fucking any white foreigner.
My condition is white, canadian,
and my face resembles Elvis P. a little.
I heared some her stories.
Then I pretend not to understand Japanese.
She did fuck with me with pleasure!
and in being surprised,
she took me to Okinawa from Tokyo and did fuck!
She reserve a suite room of price $800 at the hotel for me!
She usually plays in Ikebukuro, and Shinjuku, Tokyo area.
If you meet her, say that
"I'm friend of Brian. I'll teach you english."
immediately, She will do fuck with you with pleasure!
Truth, what is truth?
Not this, not this

Truth that follows from twisted assumptions
according to trusted rules

Truth revealed by the hot of the moment

What?

If not this -- ?

Blast, Blast across your face
   Deep cuts will open new space
   World of pure imagination

Take a look and see
   What
   not what

If you want to view paradise
   The sign of doom,
   just when it's time to leave

NOT THIS!

Is it the process
   the process of discovering
   There is no life I know

   The process of discovering what it’s not
   To compare with pure imagination

Not this, not this, not this!
No(?)

Can I allude to it
    in any way?
If I allude to it
    does this have to do
    with the being doing the alluding
    or just with the mind that perceives the ill/allusion
    (or only thinks it does –
    (or just –

DAMN DAMN Not this Not this

What we are exposed to
Are only fragments of the universe: Our sun, our moon...
    self = mental disease

We are like unto a dirty floor
    Marauding, squirming
Collecting sand and dust

Not this!

She

I
said, I am the truth
we
they

but is “I” not a construct
    (let alone all y’all)

    a contract enforced by its own damnation

Is it “I”?
This self?

This me; this mad of meat and mess?

On his head a bucket of chicken bones
    on his face a mask of pain
They made him live in a chicken house
    to try to and hide the shame

This self that builds itself and
(why? because it does?
what is cause?
what is truth?
not this not this)

Thanatopsis!
Varieties of distraction (from what?)

I woke up this morning, found myself
varieties of pleasure

Varieties of love, lust, interconnection, faith

The black-robed priest gesticulates,
  his eyeballs bulge transplendent
as cocks shaped like DNA meta-tangle
  mangle, bound through the kauri groves

Attachment murders the free to grow

  Flesh rots on the gory head stump

Nonattachment kills the magical potential
  to be and become deeply
  through coupling

  The body thumps as it’s shoved into the grave

All words are rubbish and true dialogue is possible
  We cannot guarantee bodily harm
  We are trees!

But the dialogue murders the multilogue

  Machine-elves rape toilets

Animals!
happy, singing, loving
sniffing, licking, running, asking
the core of them = the core of us
Don’t deny it, you’re an animal -- You animal!
raised by chickens that are apes in disguise
a body wrapped in a mind and a world
love-swarm of action and feeling
You like to lick and romp and scream
your tongue swaddles the inner child of the cosmos
bleeding and breeding, for you = being in time
Just be an animal, haha -- no!
No, no ... not this, not this
